# Disclaimer.

This presentation is made by Kapsch TrafficCom AG ("Kapsch TrafficCom") solely for use at this presentation. It is furnished to you solely for your information and its content may not be copied, distributed, disclosed or otherwise be made available, directly or indirectly, to any other person by any recipient, or published, in whole or in part, for any purpose.

The facts and information contained herein are as up to date as is reasonably possible and are subject to revision in the future. Neither Kapsch TrafficCom nor any of its respective directors, officers, employees or advisors nor any other person makes any representation or warranty, express or implied, as to the accuracy, completeness or fairness of the information or opinions contained in this presentation. Neither Kapsch TrafficCom nor any of its respective directors, officers, employees and advisors nor any other person shall have any liability whatsoever for loss howsoever arising, directly or indirectly, from any use of this presentation.

Whilst all reasonable care has been taken to ensure that the facts stated herein are accurate and that the opinions contained herein are fair and reasonable, this document is selective in nature and is intended to provide an introduction to, and overview of, the business of Kapsch TrafficCom. Where any information and statistics are quoted from any external source, such information or statistics should not be interpreted as having been adopted or endorsed by Kapsch TrafficCom as being accurate. We have not independently verified market data provided by third parties or industry or general publications.

This presentation contains forward-looking statements, based on the beliefs and assumptions currently held by the management of Kapsch TrafficCom, which are expressed in good faith and are in its opinion, reasonable. These statements may be identified by words such as "expectation" or "target" and similar expressions, or by their context.

Forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause actual results, financial condition, performance, or achievements of Kapsch TrafficCom, or results of our industry generally, to differ materially from the results, financial condition, performance or achievements expressed or implied by such forward-looking statements.

Given these risks, uncertainties and other factors, recipients of this document are cautioned not to place undue reliance on these forward-looking statements. Kapsch TrafficCom disclaims any obligation to update these forward-looking statements to reflect future events or developments.

This presentation does not constitute or form part of any offer or invitation to sell or issue, or any solicitation of any offer to purchase or subscribe for, any securities of Kapsch TrafficCom in any jurisdiction, nor shall part, or all, of this presentation form the basis of, or be relied on in connection with, any contract or investment decision in relation to any securities.

Securities issued by Kapsch TrafficCom have not been and will not be registered under the U.S. Securities Act of 1933, as amended, or any U.S. state securities law.

The distribution of this presentation in other jurisdictions may be restricted by law and persons into whose possession this presentation comes should inform themselves about, and observe, any such restrictions. By accepting this presentation, you agree to be bound by the foregoing instructions and restrictions.

# Kapsch TrafficCom.

At a glance.

## Provider of Intelligent Transportation Solutions (ITS)

Segment Tolling: ~ 70% of revenues  
 Segment Traffic Management: ~ 30% of revenues

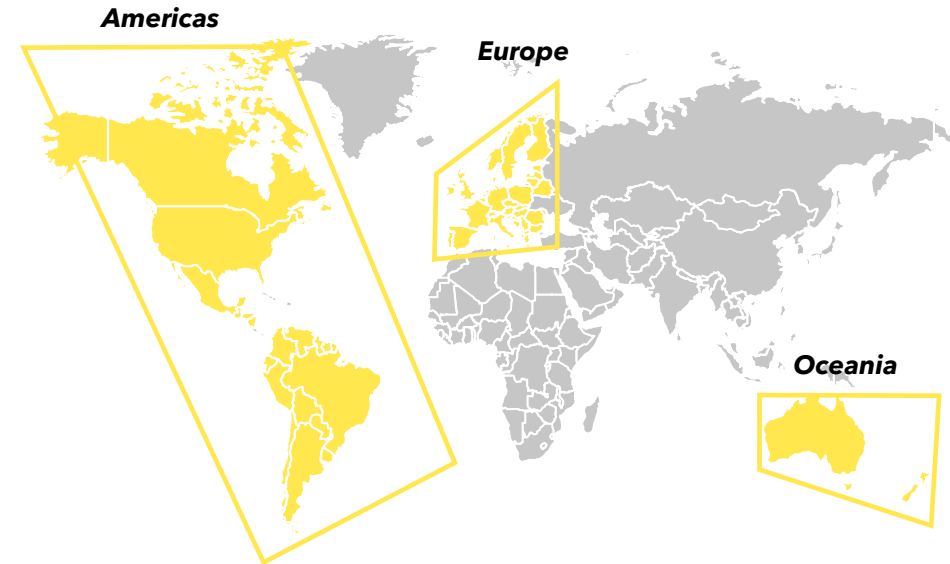

## System integrator with in-house production

## Technological forerunner: electronic tolling pioneer

## Listed at Vienna Stock Exchange.

IPO in June 2007 Prime segment  
 Free float of 36.7% KAPSCH Group holds 63.3%

## Regional focus markets.

in year 2020

# Reporting segments.

## TOLLING

- Pioneer and technology leader in electronic toll collection.
- Unique experience in nation-wide toll systems.

### **Electronic toll collection.**

#### Technology:

- > Microwave (DSRC)
- > Satellite (GNSS)
- > Video
- > Mobile tolling
- > eVignette

#### Applications:

- > Multi-lane free-flow (MLFF)
- > Demand management
  - Congestion charging
  - Managed lanes (tolled)

### **Plaza tolling.**

### **Tolling services.**

## TRAFFIC MANAGEMENT

- Combines conventional traffic management with smart traffic solutions, demand management and data services.

### **Traffic management.**

- > Highway
- > Tunnels/bridges
- > Urban
- > Corridors
- > C-ITS / connected mobility

### **Demand management.**

- > Urban access management (non-charging)
- > Managed lanes (non-charging)
- > Cross-domain policy setter (CDPS) - new, to be developed

# Market: regional focus.

## Americas

## Europe

## Oceania

### Regional reporting

- EMEA  
(Europe, Middle East, Africa)
- Americas  
(North, Central and South America)
- APAC  
(Asia-Pacific)

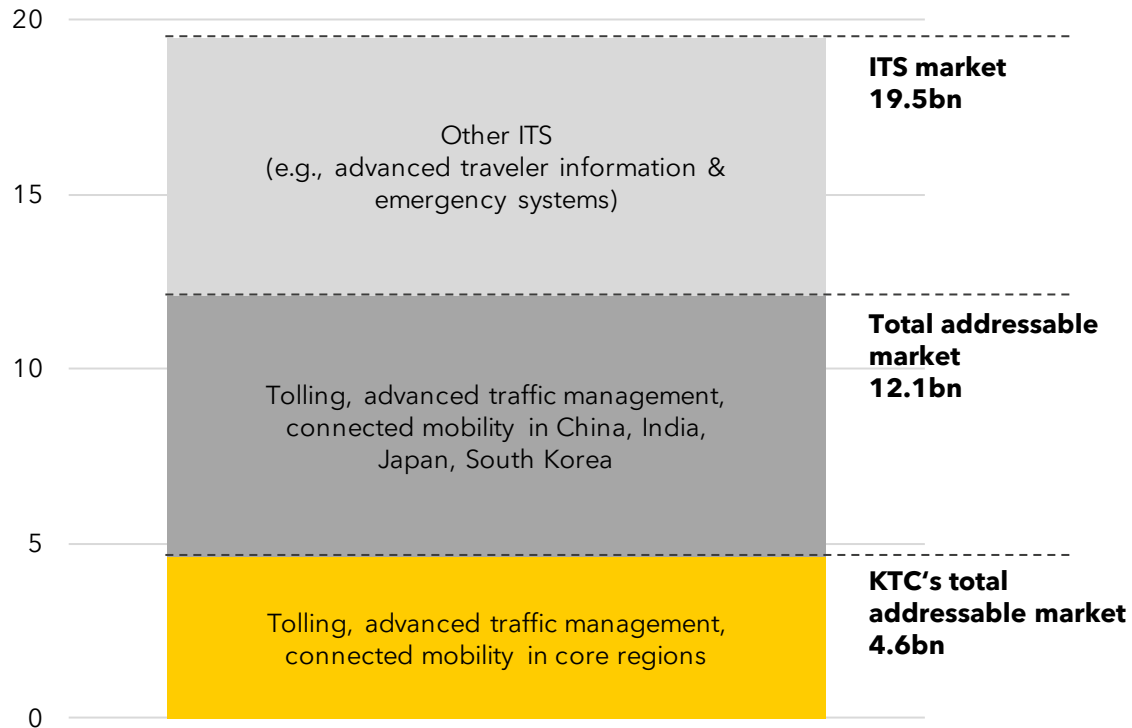

### Competition

- Fragmented market:
  - Regionally
  - By solutions/applications
  - By technology
- Many competitors are (a rather small) part of a larger group.

# Market: volume.

Target market and expected market development.

## Total addressable market for Kapsch TrafficCom in year 2020.

Source: Kapsch TrafficCom, Grand View Research, ABI Research

## KTC's total addressable market 2020-2027. (In € billion)

# Market: drivers.

## **Infrastructure demand & funding.**

Growing car park and traffic volumes  
E-vehicles → lower fuel tax income

New, shared transportation modes  
Electrification of transportation

## **Ecological footprint.**

European Green Deal  
CO<sub>2</sub>, particulate matter, noise

## **Connected mobility.**

Rapid evolution of network technology  
and autonomous vehicles and driving

## **Data & artificial intelligence (AI).**

Emergence of vehicle data hubs.  
AI for analytics, simulation and prediction

## **Shift in business.**

From hardware to software platforms  
Smart infrastructure

# Business model.

## Overview.

- Cover the customers' entire value chain as a one-stop-shop.
- High degree of flexibility for responding to customer needs: From components, to building complete turnkey systems, to operating them.

### **Components.**

Develop, produce (Austria, Canada) or source:

- In-vehicle components
  - On-board units, transponders
- Road-side components
  - Transceivers, readers, cameras, sensors
- Traffic controllers

### **Implementation.**

Planning/design/installation of systems and applications

- System integrator
  - Own core technology
  - Subcontractors and partners as required
- Project and supplier management
- Installations are transferred to the customer upon completion

### **Operations.**

- Technical operations
  - Monitoring, maintenance, improvement of a system
- Commercial operations
  - Includes the planning and realization of sales offices, call center services, web portals, implementation of payment systems
- Compensation regardless of traffic volume

### **Tolling services.**

- Europe:
  - European Electronic Toll Service (EETS)
  - Tolling services for passenger vehicles
- USA:
  - Toll road payments app

***End-to-end solutions as a one-stop shop***
